pubgem Project Guide

Ian Dennis Miller

This Project Guide offers an overview of all the documentation and resources related to this project.
This website is for developers. The regular pubgem website is `http://www.pubgem.com`

Communication

- Website - `http://project.pubgem.org`
- Wiki - GitHub
- Chat - IRC #pubgem on freenode.net - Slack
- Mailing List - Google Groups
- Video Chat - Google Hangouts

- Kanban Board - HuBoard
- Source Code Repository - GitHub
- Continuous Integration - Travis CI

- rss-aggregator - repo - testing -

A Model-View-Controller architecture is designed in terms of these documents. The ERD corresponds to the **Model**, the Wireframes correspond to the **View**, and the Flowcharts correspond to the **Controller**.

- Architecture [zip]
- Entity Relationship Diagram [zip]
- Wireframes [zip]
- Flowcharts [zip]

Planning

- Charter [pdf] [docx] [Presentation]

Management

This is an agile project that is controlled according to these documents.

- System Resources Diagram [zip]
- Agile Management Plan [pdf] [docx] [Presentation]
- Project Guide [Presentation]
